

## How to retrieve my old decks?

Tuesday, 24 January 2012 21:48

---

Q: Can I recover the old decks .mdk? How?

A: To convert a deck in an older format so that it can be used with **new MagMa version**, it is sufficient to do the following operations:

- open the **.mdk** with notepad app (or other text editor)
- insert a new line at its very beginning, containing just character "/" (slash); then save as **.deck** and close it

In the new **.deck** format, the first line contains the formats to which the deck belongs, separated by a slash (e.g. *EXT/* or **EXT/T2**).

The formats of a deck can be checked and saved from the **DeckBuilder**, and used to filter decks in window **New Game**.
